## **Esoteric Series Delivers State of the Art in Driver Design**

DAYTON, OH – Dayton Audio's Esoteric Series is the ultimate expression of Dayton Audio's transducer engineering know-how and finesse.

The Esoteric Series by Dayton Audio brings together the best in loudspeaker technology and accomplished musical performance. Vanishingly low distortion and power compression are combined with exceptional transient response and smooth tonality, and an elegant aesthetic complements the most elevated designs. Dayton Audio's Esoteric Series' woofer motor geometry is designed to provide a powerful, stable field with excellent saturation and symmetry, expanding the usable range of excursion.

Esoteric Series drivers have been optimized using industry-leading design tools and methodologies including Finite Element Analysis (FEA) and Klippel LSI analysis, and incorporate advanced technologies such as flat-wound CCAW coils, titanium voice coil formers, symmetrical-flux neodymium motors, and pinned-center ring dome geometry.

### **About Dayton Audio**

Dayton Audio has been a leading supplier of audio and video products for over ten years. Dayton Audio offers some of the finest lines of consumer electronic products today. Every Dayton Audio product is designed and engineered in the U.S.A. offering the highest level of performance and value, backed by industry-leading warranties and support. Dayton Audio combines real-world design with high-tech manufacturing techniques. Dayton Audio products can be purchased through the following authorized reseller in the USA: Parts Express (parts-express.com). Visit us online at [www.daytonaudio.com](http://www.daytonaudio.com)
