

Dayton Audio Introduces Innovative yet Affordable Amplifier

DAYTON, OH (February 26, 2019) – Dayton Audio launched the DTA-PRO, a unique all-in-one amplifier that fuses feature-rich design, high-end audio quality with functionality, and ergonomics.

Modern amenities such as Bluetooth, USB DAC, IR remote, and a subwoofer output make the versatile DTA-PRO a perfect all-inclusive amplifier for almost any 2.1 home audio system.

Highly efficient class-D amplifier topology delivers an uncolored, pleasing audio experience. The DTA-PRO offers an astonishing 100W of power that will drive even the most demanding of speakers. In addition to a powerful stereo amplifier, the DTA-PRO also features a line level output for a powered subwoofer. Capable of producing a tight, wall-shaking listening experience, the DTA-PRO's 3 VRMS sub output provides a powerful, driving low-end response.

Not only does the DTA-PRO offer best-in-class power, but the amplifier is also ergonomic. The DTA-PRO comes fully equipped with a variety of commonly used input sources including aptX Bluetooth 4.2, optical, USB, and stereo 3.5mm. The DTA-PRO can also be used as a high-quality DAC. With a 192 kHz/24-bit sampling rate, the DTA-PRO is extremely capable for use as DAC in any critical listening system. The included IR remote provides total control over amplifier features.

If you are looking for an amplifier that is not only powerful but also user-friendly and compact, look no further than the Dayton Audio DTA-PRO. From critical listening systems to 2.1 home theaters the DTA-PRO's great sound, versatility, and industry standard feature set make the amplifier the perfect centerpiece or addition for any audio setup.
