

Multi-Zone Audio, Simplified

DAYTON, OH (August 2020) –The Dayton Audio MA455 delivers multi-zone Class AB amplification in an easy-to-use, set-and-forget design. The MA455 provides reliable audio performance with a convenient and straightforward interface. The compact design, complete with a lockable security cover, makes the MA455 perfect for small businesses, stores, restaurants, bars, and office spaces.

Versatility Across Zones

Delivering four input channels, the MA455 gives you the ability to connect multiple sources for custom multi-zone audio. Each input channel provides an RCA and 1/4" line input. In addition, the MA455 has a built-in media player that includes USB and SD MMC ports, Bluetooth, and FM radio that can be assigned to any input channel. Each zone has a mono RCA line out for use with an external amp as well as barrier strip.

Tailor Your Sound

Each input channel has an individual volume, bass, and treble controls, giving you control over the input sources. Accessible via the included IR remote control, the MA455 also provides seven EQ presets to further dial in your desired sound. The MA455 also has an 80 Hz high-pass filter for each zone.

Secure, Compact Design

The MA455 is housed in a compact, simple to install on-wall form factor. With the streamlined design, the amplifier is ideal for set-and-forget installations. In addition to the compact size, the MA455 also features a lockable security cover so that you can keep your settings consistent without fear of tampering.

Distributed Audio Functionality in a Convenient Design

The MA455 delivers all of the functionality and quality you would expect from Dayton Audio in a simplified design. With convenience and function at the forefront of design, the MA455 is perfect for use in applications that need easy-to-use multi-zone audio such as restaurants, bars, offices, stores, businesses, and more.
